It would save hundreds of lives each year. But Sandy Schrader refuses to sign on to the Clean Indoor Air Act in the legislature.

Secondhand smoke contains 4,000 dangerous chemicals, including arsenic and cyanide.

The Surgeon General says that secondhand smoke “leads to disease and premature death in children and nonsmoking adults.”

Sandy Schrader knows all this. But still she refuses to sign on to the Clean Indoor Air Act, which would require all workplaces, restaurants and bars to be smoke-free.

The legislation that Schrader refuses to support would protect the right of all Maryland workers and families to breathe clean air. So why should Maryland support Schrader?

**Sandy Schrader won't support
legislation to protect our health.
Why should we support her re-election?**
