

**WARNING:** THIS SENATOR'S DECISIONS  
MAY BE HAZARDOUS TO YOUR HEALTH.

Senator Chuck McIlhinney is standing in the way of your right to breathe clean air—even though 84% of voters want **ALL** workers protected from secondhand smoke. It's time to stop the delay and pass a smoke-free law for all workplaces, including restaurants, bars and casinos. Because secondhand smoke contains over 4,000 chemicals, including arsenic and cyanide. And it causes lung cancer and heart disease—killing more than 2,100 Pennsylvanians each year.

**CALL SENATOR MCILHINNEY AT 800-648-3678 AND TELL HIM:  
PROTECT OUR RIGHT TO BREATHE CLEAN AIR — NOW.**
