

WARNING: THIS REPRESENTATIVE'S DECISIONS
MAY BE HAZARDOUS TO YOUR HEALTH.

Representative Ron Miller is standing in the way of your right to breathe clean air — even though 84% of voters want **ALL** workers protected from secondhand smoke. It's time to stop the delay and pass a smoke-free law for all workplaces, including restaurants, bars and casinos. Because secondhand smoke contains over 4,000 chemicals, including arsenic and cyanide. And it causes lung cancer and heart disease — killing more than 2,100 Pennsylvanians each year.

**CALL REPRESENTATIVE MILLER AT 800-648-3678 AND TELL HIM:
PROTECT OUR RIGHT TO BREATHE CLEAN AIR — NOW.**
